Note: Settlement and district statistics were updated in June 2013. Population figures (adults and children) are estimates calculated by using state-sensitive averages of the estimated number of people per church district. The population per district varies by region, community, affiliation, and age of the district. Thus the actual number of people in a specific district or state may be higher or lower than the estimates in these tables. The national composite average per district is 137. The table includes all Amish groups (Old Order and New Order) that use horse-and-buggy transportation, but excludes car-driving groups such as the Beachy Amish and Amish Mennonites.

Sources: Raber's *Almanac*, reports of correspondents in Amish publications, the annual migration report in *The Diary*, state and regional settlement directories, and informants in settlements.

Amish Population Change 2008-2013, 5-Year Summary

	2008	2013	Net Gain	Percent Change
Settlements	410	469	59	14%
Districts	1,710	2,056	346	20%
Est. Population	235,355	281,675	46,320	20%
States/Provinces	28	31	3	11%

Notes:

1. Three states have Amish settlements in 2013 that did not have any in 2008: Idaho, South Dakota, and Wyoming.
2. Settlement and district statistics were updated in June 2013. Population figures (adults and children) are estimates calculated by using state-sensitive averages of the estimated number of people per church district. The population per district varies by region, community, affiliation, and age of the district. Thus the actual number of people in a specific district or state may be higher or lower than the estimates in these tables. The national composite average per district is 137. The table includes all Amish groups (Old Order and New Order) that use horse-and-buggy transportation, but excludes car-driving groups such as the Beachy Amish and Amish Mennonites.
