Notes:

Settlement and district statistics were updated in June 2022. The number of people in a church district varies by settlement. For example, there are approximately 170 people per district in the Lancaster County settlement and approximately 130 people per district in the Holmes County settlement.

Population estimates, which include both adults and children, were calculated using a variety of sources including Raber's *New American Almanac*, reports by correspondents in *Die Botschaft*, *The Budget*, and *The Diary*, settlement directories, regional newsletters, and settlement informants, and were rounded at the settlement level. The table includes all Amish groups that use horse-and-buggy transportation but excludes car-driving groups such as the Beachy Amish and Amish Mennonites.
